Web Enabled Safety System (WESS)

Safety Mishap Analysis & Retrieval Tool (SMART)

Our powerful analytics engine enables you to search and analyze mishap data with all of the features you would expect from a modern data mining solution.

- ✓ Ad-hoc Query
- ✓ Data Export
- ✓ Result Filters
- ✓ Interactive Charts

Mishap/Hazard Reporting

Enter and edit safety mishaps and hazards. Conduct injury verification of mishap data.

Dive/Jump

Manage dive logs and jump manifests. Ensure qualifications and training are maintained.

SMART Mishap Search

Ad-hoc search and analysis of safety mishap data. Export mishap data in multiple formats.

Jasper Reports

Run formatted print-ready mishap reports. Export report data in multiple formats.
